Lab
Prompting

Soumadeep Saha

Task Description

- You have a pre-trained and instruction fine-tuned LLM - **Falcon - 7b.**
- Code to run inference (language generation is provided).
- You will find a set of tasks (riddles, games, etc) in `./tasks`
- Solve as many as you can with implementation of prompting techniques.
- Bonus points for implementing CoT-SC or ToT.
- Further documentation can be found in **References**.

Good luck!

Feel free to ask for help.
